On May 4, 1970, the Ohio National Guard gunned down unarmed college students protesting the Vietnam War at Kent State University. In a deadly barrage of 67 shots, four students—Jeffrey Miller, Allison Krause, William Schroeder, and Sandra Scheuer—were killed and nine others were shot and wounded. It was the day America turned guns on its own children—a shocking event burned into our national memory. A few days prior, 10-year-old Derf Backderf saw those same Guardsmen patrolling his nearby hometown, sent in by the governor to crush a trucker strike. Using the journalism skills he employed on My Friend Dahmer and Trashed, Backderf conducted extensive interviews and exhaustive research to explore the lives of these four young people and the events of those four days in May when the country seemed on the brink of tearing apart. Kent State: Four Dead in Ohio, published in time for the 50th anniversary of the tragedy, is a moving and troubling story about the bitter price of dissent—as relevant today as it was in 1970.

About the Author

John “Derf” Backderf grew up in Richfield, Ohio, near Akron. He attended Ohio State University on a journalism scholarship and served as political cartoonist for the student newspaper. The bestselling, award-winning creator of Punk Rock & Trailer Parks, My Friend Dahmer, and Trashed is also the recipient of the prestigious Robert F. Kennedy Journalism Award for political cartooning for his weekly comic strip, “The City,” which appeared in over 100 newspapers for almost twenty-five years. Backderf lives in Cleveland, according to his website, “for reasons he can no longer remember.”

Talk About It

Topics to share when discussing Kent State: Four Dead in Ohio.

- Why do you think Backderf decided to begin the book with his own experience of seeing the National Guard troops? How does this foreshadow the events of May 4?

- Discuss the ways in which Backderf brings in the perspectives of the students, local townspeople, National Guard troops, and others to provide a fuller picture of the events. Does this make you more or less sympathetic to those involved on a particular side? Does it evoke other emotions?
Talk About It (continued)

- It was important to Derf that the story be told from the viewpoint of “The Four”: Jeffrey Miller, Allison Krause, William Schroeder, and Sandra Scheuer, who are often hardly remembered beyond their school photos. This makes the reader think about the national tragedy from a very intimate and personal perspective. Discuss your reaction to the author’s decision to use the personal narrative of “The Four” while also providing the exhaustively-researched reportage of the historical context surrounding May 4, 1970. How does getting to know the students as individuals affect your reaction to the events?

- How is miscommunication or misinformation amplified within each group involved? How does this escalate events, ending in the shootings themselves?

- Discuss the unique storytelling opportunities made possible through the use of the medium of comics. For example, Backderf in interviews has specifically mentioned that no photographs exist of the shootings as they happened. His depictions (pp. 221-232, all meticulously researched) are a powerful pictorial witness to the shootings themselves.

- Several times, Backderf stretches sound effects, shouts, or screams across multiple panels: music playing (pp. 21-22); tolling of the bell (p. 178); “Guard off campus!!” (p. 186;) Mary Ann Vecchio’s scream (pp. 235-237). Discuss the effect these have in unifying a scene or setting the tone for the story being told within those specific panels.

- Why do you think Backderf chose to include the copious notes at the end of the book? Discuss why you think Backderf chose to place the epilogue of the conversation between President Nixon and his Chief-of-Staff H.R. Haldeman after the notes.

- Did Kent State: Four Dead in Ohio provide additional details of the events on Kent State’s campus of which you were unaware? Some readers have specifically mentioned they were unaware, prior to reading the book, of the use of bayonets (p. 142-147) by the National Guard troops.

Go Further
The following resources will allow you to further explore the historical context surrounding the events of May 4, 1970, on the campus of Kent State University, as well as the social context in which they happened.

Nonfiction “Graphic Novels” for Adults

The catch-all term “graphic novel” might obscure the use of comics as an evocative medium for telling nonfiction stories. *Kent State* uses comics to provide an engaging narrative history of the events leading up to May 4, 1970. Backderf’s 26 pages of notes document specific sources for nearly every page of the book, making it a must-read for anyone trying to understand the cultural context of that tragedy.

Comics can convey information in a way that cannot be duplicated in any other medium; and nonfiction, memoir, and journalism comics provide creators with a unique way to tell their stories. While the Pulitzer Prize-winning *Maus* by Art Spiegelman has become deservedly well-known, we also suggest the following nonfiction comics to expand your exploration of this genre.

*Putin’s Russia: The Rise of a Dictator* (2022) by Darryl Cunningham
Cunningham’s biography of the Russian leader provides historical and cultural context on how Putin came to power and how he has consolidated public support and attempted to eradicate dissent. A timely and compelling read.

*The Influencing Machine: Brooke Gladstone on the Media* (Updated ed., 2021) by Brooke Gladstone and Josh Neufeld
NPR’s Brooke Gladstone and comics artist Josh Neufeld provide a valuable examination of the workings of the media with a new afterward looking at the rise of social media and our responsibility in a time of division and disinformation.

*They Called Us Enemy* (2019) by George Takei, Justin Eisinger, Steven Scott, and Harmony Becker
Takei recounts the story of his childhood imprisoned in American concentration camps during World War II. A 2021 & 2022 Choose to Read Ohio selection.

*March* by John Lewis, Andrew Aydin, and Nate Powell
Told over three volumes published 2013 to 2016, *March* is the late US Congressman John Lewis’s autobiographical account of his lifelong fight for civil and human rights from his childhood in rural Alabama to his work with Dr. Martin Luther King, Jr. to the signing of the 1965 Voting Rights Act.

*Pyongyang: A Journey in North Korea* (2018) by Guy Delisle (Helge Dascher, translator)
While working for a French animation company, Delisle became one of the few Westerners allowed access to North Korea. The book conveys both the humor and tragedy of life under dictatorial whims and government censorship.

Joe Sacco literally coined the term “comics journalism,” setting a high bar for hard-hitting reporting coupled with graphic storytelling. *Safe Area Goražde* is Sacco’s award-winning work incorporating oral history interviews with his own personal reflections.

*Understanding Comics: The Invisible Art* (1994) by Scott McCloud
Told through the medium that it examines, this now-classic text provides insights into the unique storytelling possibilities of comics and the special relationship that comics work has with its reader.
